Ultimate Questions—Bryan Magee 2017-09-26 We humans being had no say in existing—just opened our eyes and found ourselves here. We have a fundamental need to understand who we are and the world we live in. The crowning achievement to a distinguished philosophical career. Ultimate Questions is a deeply personal meditation on the meaning of life and the ways we should live and face death.

What's Your Worldview?—James N. Anderson 2014-01-31 2014 Popular Theology Book of the Year - World Magazine How do you view the world? It's a big question. And how you answer is one of the most important things about you. Not sure what you'd say? Join James Anderson on an interactive journey of discovery aimed at helping you understand and evaluate the options when it comes to identifying your worldview. Cast in the mold of a classic "Choose Your Own Adventure" story, What's Your Worldview? will guide you toward finding intellectually satisfying answers to life's biggest questions—equipping you to think carefully about not only what you believe but why you believe it and how it impacts the rest of your life.

Faith and Reason—Ronald H. Nash 1994-04 This book explores philosophical questions that have important implications for the truth and rationality of the Christian faith.

Readings on the Ultimate Questions—Nils Ch Rauhut 2005 Helps readers understand the issues and problems in philosophy by reading original materials that demonstrate that philosophy is not about remote questions, but rather issues that lie deep within ourselves. With a blend of classic and contemporary readings, this anthology covers the major topics in philosophy, includes readings by outstanding contemporary philosophers that are enjoyable to read, encourage philosophical thought, and show readers how contemporary philosophers approach philosophical problems, and presents historical readings that show the work of figures in the history of philosophy. For anyone interested in understanding philosophical issues and how they relate to our lives.

The Meaning of Life and Death—Michael Hauskeller 2019-09-19 What is the point of living? If we are all going to die anyway, if nothing will remain of whatever we achieve in life, why should we bother trying to achieve anything in the first place? Can we be mortal and still live a meaningful life? Questions such as these have been asked for a long time, but nobody has found a conclusive answer yet. The connection between death and meaning, however, has taken centre stage in the philosophical and literary work of some of the world's greatest writers: Fyodor Dostoyevsky, Leo Tolstoy, Soren Kierkegaard, Arthur Schopenhauer, Hermann Melville, Friedrich Nietzsche, William James, Ludwig Wittgenstein, Marcel Proust, and Albert Camus. This book explores their ideas, weaving a rich tapestry of concepts, voices and images, helping the reader to understand the concerns at the heart of those writers’ work and uncovering common themes and stark contrasts in their understanding of what kind of world we live in and what really matters in life.

Christian Faith and Historical Understanding—Ronald H. Nash 2010-02-01 “In an age when objective moorings are being cut loose and experience reigns supreme, we need more than ever to reiterate that the distinctive feature of Christianity is its grounding in history. In this concise, well-written work, a noted philosopher and committed evangelical enables thoughtful readers to grapple with key questions in the relationship between faith and historical understanding and leads them to the awareness of a necessity for commitment to the One who stands behind as well as in history.” - Richard V. Pierard, Professor of History, Indiana State University “Highly recommended.” - Calvin Theological Journal “Professor Nash has given us a lucid exposition of an important subject that should concern both Christian and serious inquirers into the basis of Christianity. He has the gift of making very profound philosophical issues comprehensible to the average reader. His use of quotations and illustrations is most illuminating. I appreciated especially his clear analysis of the existential and naturalistic presuppositions of a key New Testament scholar, Rudolf Bultmann. I will be glad to recommend this volume to undergraduates, graduates, and faculty colleagues.” - Edwin Yamauchi, Former President, Conference on Faith and History Professor, Miami University, Oxford, Ohio

Process Theology—Ronald H. Nash 1987-01-01

Ultimate Questions—Nils Ch Rauhut 2010-10 This inexpensive and brief text examines the main problems in contemporary philosophy and uses more than 100 “Food for Thought” exercises to promote critical thinking and help students become more active learners of philosophy. The book has been intended for use by professors teaching a problems-oriented course, but is structured to appeal to any reader willing to explore subjects such as free will, personal identity, existence of God, and more. Ultimate Questions explores how the timeless problems of Western philosophy are located inside our ordinary ways of thinking and being. It encourages readers to think about philosophy first-hand by using vivid and engaging examples. It also introduces readers to prominent up-to-date theories being applied to the same problems encountered by contemporary analytic philosophers. After reading this text, students will gain a better sense of how mysterious their own natures really are.

The Concept of God—Ronald H. Nash 1983 This book brings together for the general reader the intense and wide-ranging discussions now taking place among philosophers on the attributes of God. Because of its clear explanations, numerous examples, brevity, and breadth, “The Concept of God” can be an important supplemental text to theology classes and philosophy or religion classes.

Your Ultimate Life Plan—Jennifer Howard 2012-12-26 Gold Nautilus Book Award Winner: “Nourishing and self-empowering” advice for living your happiest and most authentic life (Michael Bernard Beckwith, author of Life Visioning). We live in difficult, stressful times. You've read books and done workshops, but you still have to face so many stubborn obstacles. Yet it's often our pain and dissatisfaction that push us to seek a more conscious life. Your Ultimate Life Plan is the missing “how to” for getting unstuck and moving past your problems and into a richer and more meaningful life, creating lasting change, and making a difference. It’s a practical roadmap to help you improve every moment of your life by teaching you how to build: Confidence: remove what is stopping you; Strength: move from your wounded ego into your sacred self Courage: make smarter choices by embracing your four levels of consciousness Success: rise to your next level
The Limitations of Scientific Truth-Nigel Brush 2005-01 Brush examines the inherent limitations of scientific truth and reveals why biblical truth offers the only authority that can be completely trusted on issues of eternal consequence.

When a Baby Dies-Ronald H. Nash 1999 This book for pastors ministering to grieving parents at the death of an infant offers insights that are rich in hope and grounded solidly in Scripture.

The Meaning of History-Ronald H. Nash 1998 The Meaning of History is a concise look at the meaning of the history of the world from the viewpoints of major historians and philosophers. By examining the individual approaches of these great thinkers, this book takes on the monumental task of analyzing the history of humanity and its prospects for the future. The book studies not just the facts of history, but the personality and purpose of the vastly influential figures who shaped it. It is history constantly repeating itself, or is civilization evolving toward a predestined utopia? Is history in God's hands, or does it depend on the whims of man? This informative book traces the arc of civilization from the New Testament all the way through to today. It will forever change the way you look at history and your individual place in it.

The Ultimate Question 2.0 (Revised and Expanded Edition)-Fred Reichheld 2011-09-20 In the first edition of this landmark book, business loyalty guru Fred Reichheld revealed the question most critical to your company's future: “Would you recommend us to a friend?” By asking customers this question, you identify detractors, who sully your firm's reputation and readily switch to competitors, and promoters, who generate good profits and true, sustainable growth. You also generate a vital metric: your Net Promoter Score. Since the book was first published, Net Promoter has transformed companies, across industries and sectors, constituting a game-changing system and ethos that rivals Six Sigma in its power. In this thoroughly updated and expanded edition, Reichheld, with Bain colleague Rob Markey, explains how practitioners have built Net Promoter into a full-fledged management system that drives extraordinary financial and competitive results. With his trademark clarity, Reichheld: • Defines the fundamental concept of Net Promoter, explaining its connection to your company's growth and sustained success • Presents the closed-loop feedback process and demonstrates its power to energize employees and delight customers • Shares new and compelling stories of companies that have transformed their performance by putting Net Promoter at the center of their business Practical and insightful, The Ultimate Question 2.0 provides a blueprint for long-term growth and success.

Ultimate Price-Howard Steven Friedman 2021-05-05 How much is a human life worth? Individuals, families, companies, and governments routinely place a price on human life. The calculations that underlie these price tags are often buried in technical language, yet they influence our economy, laws, behaviors, policies, health, and safety. These price tags are often unfair, infused as they are with gender, racial, national, and cultural biases that often result in valuing the lives of the young more than the old, the rich more than the poor, whites more than blacks, Americans more than foreigners, and relations more than strangers. The critical science underpinning these undervalued lives are left less-protected and more exposed to risk. Howard Steven Friedman explains in simple terms how economists and data scientists at corporations, regulatory agencies, and insurance companies develop and use these price tags and points a spotlight at their logical flaws and limitations. He then forcefully argues against the rampant unfairness in the system. Readers will be enlightened, shocked, and, ultimately, empowered to confront the price tags we assign to human lives and understand why such calculations matter.

The Light of the Mind-Ronald H. Nash 2003-01-01 St. Augustine is not only the bridge that links ancient philosophy and early Christian theology with the thought of the Middle Ages, but one who, in his philosophy and especially in his epistemology, anticipated some of the most important ideas of Descartes and Malbranche, Berkeley and Kant. In this study of the central aspect of St. Augustine's thought, the author analyzes the various facets of his theory of knowledge and offers a new interpretation of his idea of divine illumination. St. Augustine's views on skepticism and truth, on faith and reason, and on the relation of perception and memory, are studied in order to show their relation to this theory of divine illumination as the ultimate source of truth for man. The proper understanding of the theory of illumination, of how man apprehends the divines ideas, is the most difficult problem in St. Augustine's epistemology, for he did not formulate any systematic theory of knowledge. Any account of the Augustinian epistemology, Mr. Nash believes, must resolve three paradoxes: how the intellect is both passive and active; how the forms are distinct from - and not distinct from - the human mind; and how man's mind is and is not the light that makes knowledge possible. In explaining the nature of divine illumination, Nash discusses four interpretations that have been advanced: the Thomist (which he rejects as unhistorical), the Scotist (or nominalist, philosophy), the Franciscan, the Formalist, and the Ontologist. He argues here for a modified Ontologist view. In his synthesis of Christian theology and Neoplatonic philosophy, St. Augustine held that all creation partakes of truth in varying degrees, that man as the highest part of creation, created in God's image and thus sharing to some degree the divine nature, is able to know truth through the divine light and the light of his own mind. In attempting to find an answer to the perennial problem of knowledge, St. Augustine, Nash suggests, was struggling to find a theory that would combine the benefits of conceptualism and realism, and his answer was more modern than many have given him credit for. Ronald Nash is widely regarded as one of the premier evangelical philosophers in the world. He is professor of philosophy at Southern Baptist Theological Seminary in Louisville, Kentucky. He has taught at a number of other colleges and seminars, including Western Kentucky University and Reformed Theological Seminary. The author of more than 35 books on philosophy, theology and economics, Dr. Nash is in constant demand as a speaker throughout the world.

Brief Answers to the Big Questions-Stephen Hawking 2018-10-16 Stephen Hawking was recognized as one of the greatest minds of our time and a figure of inspiration after defying his ALS diagnosis at age twenty-one. He is known for his work in theoretical physics as well as his ability to make complex concepts accessible for all, and was beloved for his mischievous sense of humor. At the time of his death, Hawking was working on a final project: a book compiling his answers to the “big” questions that he was so often posed—questions that ranged beyond his academic field. Within these pages, he provides his personal views on our biggest challenges as a human race, and when, if ever, we might be able to parenthood. Each section will be introduced by a leading thinker offering his or her own insight into Professor Hawking's contribution to our understanding. The book will also feature a foreword from Academy Award winning actor Eddie Redmayne, who portrayed Hawking in the film The Theory of Everything, and an afterword by Hawking’s daughter, Lucy Hawking, as well as personal photographs and additional archival material.

Life, the Universe and Everything-Douglas Adams 2008-12-24 Now celebrating the 42nd anniversary of The Hitchhiker's Guide to the Galaxy, soon to be a Hulu original series! "Wild satire... The Tickleless prophet. Arthur Dent, is reminiscent of Vonnegut heroes."—Chicago Tribune The unhappily inhabitants of planet Krikkit are sick of looking at the night sky above their heads—so they plan to destroy it. The universe, that is. Now only five individuals stand between the killer robots of Krikkit and their goal of total annihilation. They are Arthur Dent, a mild-mannered space and time traveler who tries to learn how to fly by throwing himself at the ground and missing; Ford Prefect, his best friend, who decides to go insane to see if he likes it; Slartibartfast, the indomitable vice president of the Campaign for Real Time, who travels in a ship powered by irrational behavior; Zaphod Beeblebrox, the two-headed, three-armed ex-president of the galaxy; and Trillian, the sexy space cadet who is torn between a persistent Thunder God and a very depressed Beeblebrox. How will it all end? Will it end? Only this stalwart crew knows as they try to avert "universal" Armageddon and save life as we know it—and don’t know it! "Adams is one of those rare treasures: an author who, one senses, has as much fun writing as one has reading."—Arizona Daily Star

The Word of God and the Mind of Man-Ronald H. Nash 1992 The last two centuries of Christian theology are the record of an evolving attack on the role of knowledge in the Christian faith. The purpose of this book is to challenge the major forms of Christian agnosticism and offer an alternative theory that makes human knowledge about God possible. In other words, is there a relationship between the human mind and the divine mind that is sufficient to ground the communication of truth from God to humans?

Is Jesus the Only Savior?-Ronald H. Nash 2010-08-10 Today many...
question the idea that there is only one way to heaven (or that Christianity is the only true faith)—even some people who identify themselves as Christians. In a world where we are likely to have neighbors of differing faiths, to profess Jesus as the only Savior may be viewed as arrogance and intolerance. Religious “pluralism” is gaining popularity. Ronald Nash believes that one’s position on the issue is crucial to an understanding of the Christian faith and sees pluralism as a significant threat to Christianity. He explores the divergent views of pluralism (“No”) and inclusivism (“Yes, but”) and makes a case for exclusivism (“Yes, period”). In doing so, Nash especially confronts the pluralism of John Hick and the inclusivism of Clark Pinnock and John Sanders. He presents his case compellingly, in accessible terms and a readable style.

Tuesdays with Morrie—Mitch Albom 2007-06-29 A special 20th anniversary edition of the beloved international bestseller that changed millions of lives. Maybe it was a grandparent, or a teacher, or a colleague. Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was Morrie Schwartz, his college professor from nearly twenty years ago. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded, and the world seemed colder. Wouldn’t you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today, the way you once did when you were younger? Mitch Albom had that second chance. He reconnected with Morrie in the last months of the older man’s life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final “class” of lessons in how to live. Tuesdays with Morrie is a magical chronicle of their time together, through which Mitch shares Morrie’s lasting gift with the world.

The Grand Design—Stephen Hawking 2010-09-07 #1 NEW YORK TIMES BESTSELLER When and how did the universe begin? Why are we here? What is the nature of reality? Is the apparent “grand design” of our universe evidence of a creator? How does quantum physics affect our understanding of reality? These are some of the profound questions explored by world-renowned physicist Stephen Hawking and cosmologist Leonard Mlodinow in THE GRAND DESIGN. In this groundbreaking book, they explore the question of why the universe exists at all—why there is something rather than nothing. What are the possible “grand designs” of the universe? What are the fundamental nature of reality, and how might it have originated? Do we stand on the cusp of a new scientific understanding of the cosmos? And if so, how might this understanding affect our understanding of the human condition? Hawking and Mlodinow approach these questions in a spirit of rigorous inquiry, and they fiercely argue against the view that the cosmos came Agreeing to a universe without a grand design is not the same as arguing that there is no design, but it is important that we don’t confuse our lack of knowledge with knowledge of lack. In THE GRAND DESIGN, Hawking and Mlodinow explore the “multiverse,” and show how quantum theory predicts the “multiverse”—the idea that ours is just one of many universes that appeared spontaneously out of nothing, each with different laws of nature. The authors explore the history of quantum fluctuation in the early universe, and how quantum theory predicts the “multiverse”—the idea that ours is just one of many universes that appeared spontaneously out of nothing, each with different laws of nature. They conclude with a riveting assessment of M-theory, an explanation of the laws governing our universe that is currently the only viable candidate for a “theory of everything”: the unified theory that Einstein was looking for, which, if confirmed, would represent the ultimate triumph of human reason.

Life’s Ultimate Questions—Jade Wiens 2017-05-11 This book is presented as “core-curriculum” for young adults and new believers alike, who wish to not only survive but thrive as Christians in our challenging, secular, atheistic culture. This five-fold foundation can help us stand as well as advance against today’s increasingly strong cultural headwinds. A: Empowering spirituality in keeping with Christianity’s rich 2000 year history. B: Expose of today’s atheistic, materialistic culture. C: Basic religious literacy (including atheism as a belief system). D: A lay person’s strategies for validating foundational assumptions. E: A dynamic encounter with the Bible’s Mother-Story.

You Can Choose to be Happy—Tom C. Stevens PhD 2010 Dr. Stevens’ research identifies specific learnable beliefs and skills—not general, inherited traits—that cause people to be happy and successful.

The Purpose Driven Life—Rick Warren 2012-10-23 The New York Times #1 bestselling book by Pastor Rick Warren that helps you understand and live out the purpose of your life. Before you were born, God already planned your life. God longs for you to discover the life he uniquely created you to live—here on earth, and forever in eternity. Let The Purpose Driven Life show you how. As one of the bestselling nonfiction books in history, with more than 35 million copies sold, The Purpose Driven Life is far more than just a book; it’s a life-changing experience for your spiritual journey. A journey that will transform your life. Designed to be read in 42 days, each chapter provides a daily meditation and practical steps to help you discover and live out your purpose, starting with exploring three of life’s most pressing questions: The Question of Existence: Why am I alive? The Question of Significance: Does my life matter? The Question of Purpose: What on earth am I here for? The book also includes links to 3-minute video introductions and a 30- to 40-minute audio Bible study message for each chapter. Plus questions for further study and additional resources. The Purpose Driven Life is available in audiobook, ebook, softcover, and hardcover editions. Also available: The Purpose Driven Life video study guide and study guide, journal, devotional, book for kids, book for churches, Spanish edition, Large Print edition, and more.

Finding Ultimate Reality—David W. Gooding 2018-11-16 We need a coherent picture of our world. Life’s realities won’t let us ignore its fundamental questions, but with so many opposing views, how will we choose answers that are reliable? In this series of books, David Gooding and John Lennox offer a fair analysis of religious and philosophical attempts to find the truth about the world and our place in it. By listening to the Bible alongside other leading voices, they show that it is not only answering life’s biggest questions—it is asking better questions than we ever thought to ask. In Book 2—Finding Ultimate Reality, they remind us that the authority behind ethics cannot be separated from the truth about ultimate reality. Is there a Creator who stands behind his moral law? Are we the product of moral forces, left to create moral consensus? Gooding and Lennox compare ultimate reality as understood in: Indian Pantheistic Monism, Greek Philosophy and Mysticism, Naturalism and Atheism, and Christian Theism.

What Should I Do with My Life?—Po Bronson 2002-12-24 “Brimming with stories of sacrifice, courage, commitment and, sometimes, failure, the book will support anyone pondering a major life choice or risk without force-feeding them pat solutions.”—Publishers Weekly In What Should I Do with My Life? Po Bronson tells the inspirational true stories of people who have found the most meaningful answers to that great question. With humor, empathy, and insight, Bronson writes of remarkable individuals—from your own age, from those just starting out to those in a second career—who have overcome fear and confusion to find a larger truth about their lives and, in doing so, have been transformed by the experience. What Should I Do with My Life? struck a powerful, resonant chord on publication, causing a multitude of people to rethink their vocations and priorities and start on the path to finding their true calling in the world. This edition, the first in a decade, Bronson has added nine new profiles, to further reflect the range and diversity of those who broke away from the chorus to learn the sound of their own voice.

The Ultimate Introduction to NLP: How to build a successful life—Richard Bandler 2013-01-03 Richard Bandler, co-creator of NLP and the man who inspired Paul McKenna to greatness, collaborates with Alessio Roberti and Owen Fitzpatrick to reveal how to unleash your true potential and transform your life.

Ideas of History: The critical philosophy of history—Ronald H. Nash 1969

Educated—Tara Westover 2018-02-20 #1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “An amazing story, and truly inspiring. It’s even better than you’ve heard.”—Bill Gates NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and: the unified theory. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Despite the singularity of [Westover’s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?”—Vogue NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE Washington Post • O: The Oprah Magazine • Time • NPR • Good Morning America • San Francisco Chronicle • The Guardian • The Economist • Financial Times • Newsday • New York Post • theSkimm • Refinery29 • Bloomberg • Self • Real Simple • Town & Country • Bustle • Paste • Publishers Weekly • Library Journal • LibraryReads • BookRiot • Pamela Paul, KQED • New York Public Library

Golf and Philosophy - Andy Wible 2010-09-24 In a game where players are expected to call their own penalties and scoring the least points leads to victory, decorum takes precedence over showmanship and philosophical questions become par for the course. Few other sports are as suited for ethical and metaphysical examination as golf. It is a game defined by dichotomies—relaxing, yet frustrating, social, yet solitary—and between these extremes the challenge for much philosophical inquiry. In Golf and Philosophy: Lessons from the Links, a clubhouse full of skilled contributors tee off on a range of philosophical topics within the framework of the fairway. The book's chapters are arranged in the style of an eighteen-hole golf course, with the front nine exploring ethical matters of rationality and social civility in a world of moral hazards and roughs. The back nine pries even deeper, slicing into matters of the metaphysical, including chapters on mysticism, idealism, identity, and meaning. Taken together, the collection examines the intellectual nature of this beloved pastime, considering the many nuances of a sport that requires high levels of concentration, patience, and consistency, as well as upstanding moral character. Golf and Philosophy celebrates the joys and complexities of the game, demonstrating that golf has much to teach both its spectators and participants about modern life.

Life's Ultimate Question: Does God Exist? - United Church of God 2010-10-18 Why are we here? What is our place in the universe? What is the purpose of life? The questions have been asked for centuries. But they all revolve around what is perhaps the most fundamental question of all: Does God exist? -- Inside this booklet: -- Asking the Crucial Questions -- Evidence All Around Us -- The Beginning of the Universe -- Our Awesome Universe -- How Big is Big? -- Science and Discomfiting Discoveries -- Our Amazing Spacehip Earth -- The Importance of Life-Sustaining Water -- The Giver of Life -- The Tiny Miracle That's Toppling Evolution -- A Deeper Look at the Evidence -- Scientists' Thundering Silence -- Life’s Purpose and the Consequences of Ideas -- Groping for Meaning and Morality -- Why Were You Born? -- Man’s Natural Hostility Toward God -- Meet God -- How Does God Reveal Himself? -- A God Not Bound by Space and Time -- Our Window of Opportunity

Religion For Dummies - Rabbi Marc Gellman 2011-04-18 Why are we here? How should we live? What happens after we die? Why does evil exist? Religion For Dummies explains how the world's great religions answer questions that persist through generations. Authors Rabbi Marc Gellman and Monsignor Thomas Hartman are trusted religious advisors known as the God Squad. With wonderful wit and incredible wisdom, they host a daily talk show which reaches nearly 4 million homes in the New York area, and have appeared on numerous TV and radio shows. This book is not a scholarly theological treatise; it's a lively, practical, hands-on resource that will help you better understand your own religion and others. You'll explore: Religion's role in the family and in the workplace The beliefs and practices of Christianity, Judaism, Islam, and other religions Religion's impact during major passages in life such as birth, death, and marriage How to join a religion and how to pray How religion can help you deal with issues in everyday life such as conflict, adversity, marriage, divorce, and more Religious rituals and ethics Religion for Dummies touches on lesser-known religions (such as, Zoroastrianism, Jainism, Sikhism). It explores how people of various faiths pray, celebrate life and death, and view moral issues. The book does not tell you what to believe, but rather encourages you to think for yourself and question what you are expected to accept. It gives simple answers to haunting, complex questions; it helps you find your own answers and pursue your own spiritual path!

The Ultimate Guide to Creating the Life You Want - Domonique Bertolucci 2006 Have you ever wondered why life seems so easy for some people? They seem confident and in control, they have great jobs, happy relationships and really love life. Why do these people radiate success? How did they create such dream lives? And how can you create a dream life of your own? It's simple. Know where you want to be. Know what you need to do. And do it! In Your Best Life Domonique Bertolucci will show you how to bring these simple statements into being to create a detailed plan of action, build motivation and staying power and make the life you want. Each chapter will include exercises, case studies and lessons to help you overcome obstacles and work through the tough times so you can live your dreams.

The Problems of Philosophy - Bertrand Russell 2001 This work, originally published in 1912, is an introduction to the theory of philosophical enquiry. It gives Russell's views on such subjects as the distinction between appearance and reality and the existence and nature of matter.

Worldviews in Conflict - Ronald H. Nash 2010-08-10 This is a battlefield in the arena of ideas. The prize is the heart and mind of mankind. In this book, Ronald Nash outlines the Christian way of looking at God, self, and the world. He holds that worldview up against the tests of reason, logic, and experience, particularly discussing the problems of evil and the alleged "nonsense" of the historic Christian doctrines and of Jesus' incarnation and resurrection. He finds the Christian worldview sound and urges Christians to equip themselves intellectually to defend the faith on that battlefield. He particularly hits the attractions to our generation of naturalism and the New Age movement, pointing out their weaknesses and pitfalls as well as those of other worldviews. "Christian theism," he writes, "is a system that commends itself to the whole person"; but he stresses that a great difference exists between 'belief that' and "belief in."

Philosophy For Dummies - Tom Morris 2011-03-10 Philosophy at its best is an activity more than a body of knowledge. In an ancient sense, done right, it is a healing art. It’s intellectual self-defense. It’s a form of therapy. But it’s also much more. Philosophy is map-making for the soul, cartography for the human journey. It’s an important navigational tool for life that too many modern people try to do without. Philosophy For Dummies is for anyone who has ever entertained a question about life and this world. In a conversational tone, the book’s author – a modern-day scholar and lecturer – brings the greatest wisdom of the past into the challenges that we face now. This refreshingly different guide explains philosophical fundamentals and explores some of the strangest and deepest questions ever posed to human beings, such as How do we know anything? What does the word good mean? Are we ever really free? Do human beings have souls? Is there life after death? Is there a God? Is happiness really possible in our world? This book is chock full of all those questions you may have long wanted to think about and talk with someone about, but have never had the time or opportunity to tackle head on. Philosophy For Dummies invites you to discuss the issues you find in the guide, share perspectives, and compare thoughts and feelings with someone you respect. You’ll find lots of material to mull over with your friends or spouse, including thoughts on When to doubt, and when to doubt our doubts The universal demand for evidence and proof The four dimensions of human experience Arguments for materialism Fear of the process of dying Prayers and small miracles Moral justification for allowing evil The ancient philosopher Socrates (fifth century, B.C.) thought that, when it comes to the Ultimate Questions, we all start off as dummies. But if we are humbly aware of how little we actually know, then we can really begin to learn. Philosophy For Dummies will put you on the path to wising up as you steer through the experience called life.
